

Featured 1% ftp Environmental Partner

With 1% for the planet and you, we want to protect the marine ecosystems in the **Philippines**, the mega-biodiversity country most affected by ocean plastic worldwide.

ABOUT US

- **+185 tonnes** of ocean plastic collected
- **+2000 primary school pupils** taught about Mangroves
- Innovative recycling solutions developed

The German NGO Pro Ocean is committed to the holistic protection of the oceans in the Philippines. We collect ocean plastic, provide quality education and set up innovative recycling facilities to tackle ocean pollution.

IMPACT

Become a **sponsor for water** and the **oceans** with Pro Ocean and 1% ftp. You will receive access to **exclusive photo and video material** and impact reports that impressively show the **visible results** of your contribution.

"For local people - highly effective and scientifically proven, that is our unique approach with Pro Ocean!"
